

Luminaires OSMONT does not require special care in matter of cleanliness and maintenance.

However, it is important to follow several rules:

## CARE AND MAINTENANCE OF EXTERNAL MOUNTINGS AND OTHER EXTERNAL COMPONENTS

- Turn off the power supply
- Clean the dirt and dust with a damp cloth
- Cleaning agents suitable for this material can be used
- Do not use detergents containing chemical solvents and thinners
- Do not use wool or abrasive sponges to clean product
- Be careful and avoid any ingress of water or cleaning agent into the luminaire (it could damage the electrical equipment of the luminaire)

## CARE AND MAINTENANCE OF THE DIFUSSORS:

- Switch off the power supply
- Clean the dirt and dust with a damp cloth (in the cooled state of the shade)
- Cleaning agents suitable for this material can be used
- Do not use detergents containing chemical solvents and thinners
- Do not use wool or abrasive sponges to clean product
- Be careful and avoid any ingress of water or cleaning agent into the luminaire (it could damage the electrical equipment of the luminaire)
