

INSTALLATION INSTRUCTIONS

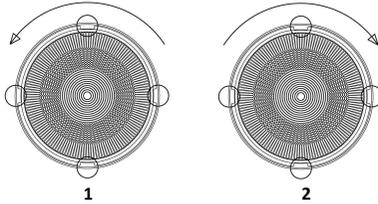

type: ELEKTRA (3,3L,3K), META, META L

osmont

The luminaire can be used as ceiling and wall.

- by angular rotation counter-clockwise loosen the shade from the fixture (1)
 - check, if the electrical supply is switched off
 - extend the input cable through opening in the fixture and fix it to the wall (ceiling) by screws through rubber washers
 - supply the input conductors with silicon sleeves
 - connect the input conductors to the lamp socket
 - install the light source (see to the label on the luminaire)
 - put the shade on the fixture and by angular rotate clockwise and tighten (2)
- By the version ELEKTRA 3K, put the grid on and by next rotate of the shade fix the grid.

Electrical installation and safety:

Generally it is necessary to follow the EU regulations. At any revision or service activity it is necessary to disconnect lighting fitting from the electrical network. Only qualified and experienced person can do this work.
